

# WEEDS ACTION FUND

The Weeds Action Fund is a ground breaking, **\$5.0 million dollar**, 5 year program aimed at tackling high priority weeds impacting valuable agricultural and environmental assets across Tasmania.

If you are a primary producer or representative of a group or organisation with a focus on weed control and eradication then we want to hear from you.

 **Applications for small grants are now open until 31 July 2019.**

Priority will be given to applications that propose a **strategic and targeted approach** and demonstrate **co-investment** through funds or in-kind support. Weed management is a 'shared responsibility' so if you have skin in the game...apply now!

Ian Sauer  
Weeds Action Fund Chair

**It's a bad time  
to be a weed  
in Tasmania!**
