

## TASMANIA REGIONAL FORESTRY HUB SCORECARD

### GOAL OF THE NATIONAL FOREST INDUSTRIES PLAN

A billion more plantation trees – the right trees, at the right scale, in the right places.

### OBJECTIVES OF THE NATIONAL FOREST INDUSTRIES PLAN

To support the delivery of this goal for forest industries, the Australian Government is focusing on:

1. **Driving plantation growth**, with a focus on existing softwood plantation and processing regions. Identifying new plantation opportunities, ensuring the right trees are planted in the right places, adding value to existing infrastructure and processing capability, and maximising community participation.
2. **Delivering policy mechanisms** which will give farmers the confidence needed to participate in profitable farm forestry ventures.
3. **Reducing barriers to forestry expansion** and supporting the planting of more trees.
4. **Using forestry resources smarter** to help industry extract greater value from forest products.
5. **Growing community understanding of forestry** to build public support for sustainable forestry activities in Australia.

### SCORECARD: HUB'S ACTIVITIES MAPPED AGAINST NATIONAL PLAN'S OBJECTIVES

	Objective 1	Objective 2	Objective 3	Objective 4	Objective 5
<b>Hub's Strategic Pillars</b>					
Drive positive climate outcomes	✓	✓	✓	✓	✓
Develop a fit for purpose workforce	✓			✓	✓
Grow and maintain farm forestry	✓	✓	✓	✓	✓
Support industry growth through infrastructure planning	✓		✓	✓	
<b>Hub's Key Projects</b>					
Northern Tasmania land access and land policy	✓	✓	✓	✓	
Northern Tasmania infrastructure	✓		✓		
Workforce – culture, skills and training			✓		✓
Climate and carbon policy	✓	✓	✓	✓	✓
Southern Tasmania infrastructure	✓		✓		
Hobart Port economic analysis	✓		✓		✓
Domestic processing	✓		✓	✓	✓
TFFPN workforce development plan	✓		✓		✓
